Car care checklist

Oil change

It's recommended you have your vehicle serviced along with an engine oil change at least every 10,000km or every six months, whichever comes first.

Tyres

Looking after your tyres will not only save you money – but they are an essential safety feature of your car. Check tyre pressures and tread depth regularly, tyre replacements can often be unexpected and expensive so it makes sense to take care of them.

Battery

Ensure the battery cable connections are tight and the terminals are free from corrosion. If the battery is more than 3 years old, it's a good idea to have it tested.

Wiper blades

Wiper blades should completely clear the glass with each swipe. Make sure the windshield washer reservoir is filled.
